

## General Fall Turkey Hunting Regulations

Bag Limit: 1 wild turkey either sex per fall irrespective of weapon.

Shooting Hours: 1/2 hour before sunrise to sunset.

### License Requirements:

-**Fall Turkey License**\* (resident and nonresident<sup>#</sup>) plus a game-bird habitat stamp.

\* This is a separate license, spring licenses not applicable.

# Non-Residents of some states (e.g. IL, KY, & OH) must also purchase an annual non-resident hunting license.

**or**

-Comprehensive licenses (Lifetime and Youth).

**or**

- Qualifying landowners or active military personnel on leave.

Check Stations: Utilize deer check stations (age and sex determined by plumage characteristics) and self-locking seals used for deer.

IDNR FWA and Reservoir Properties: Some IDNR Properties with high hunter use or high spring hunter demand, may limit or disallow fall turkey hunting opportunities.

Additional Rules: All other regulations pertaining to spring turkey hunting apply (e.g. shot sizes, gauges, non-electronic decoys allowed, no electronic calls, or no baiting, and no dogs).

**Closed  
to All  
Turkey  
Hunting**

**Fall  
Archery**

**Both  
Archery  
& Gun**

**Spring  
Hunting  
Only**

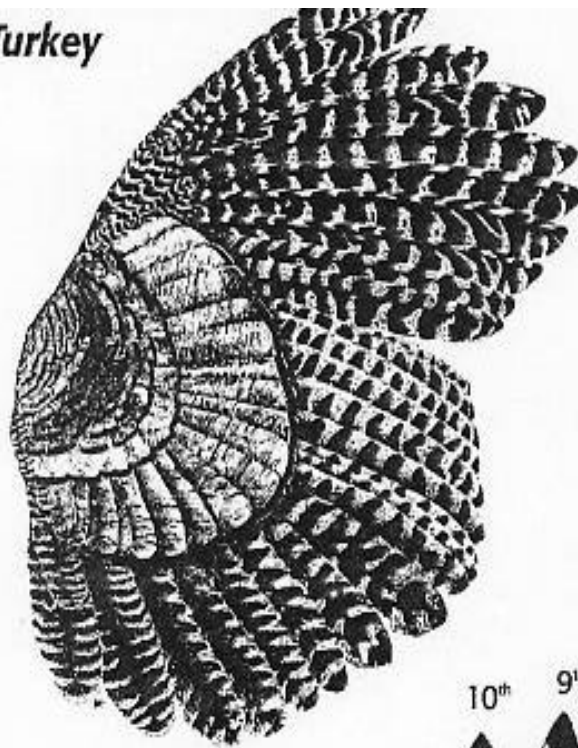

# Sex & Age Determination

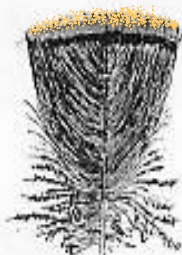

**If obvious leg spur then male:**

- $\geq \frac{1}{2}$  inch spur = adult male,
- $< \frac{1}{2}$  inch spur = juvenile male
- otherwise use plumage to determine sex & age.
